Wolfe's Neck Farm Programs

Dig Deeper Series

Join us as we "dig deeper" into some of the key issues in food and farming today. Free admission.

Farming & the Fight Against Climate Change

Dorn Cox, WNF Research Coordinator

Learn about the Regenerative Farm Observatory Network at Wolfe's Neck Farm, where soil health research is shared with farmers, scientists and the public to find ways agriculture can mitigate the effects of climate change. **June 27, 4:30 PM**

Why We Need More Farmers & How They Can Change the World

Sarah Littlefield, Organic Dairy Program Director

Learn how farmers are contributing to the health of our economy and environment, and meet some of our organic dairy apprentices who will be part of the next generation of farmers. **July 18, 4:30 PM.**

WNF's Growing Role In the New England Food System

Tim Griffin, WNF Board Member & Tufts University Director of the Agriculture, Food & Environment Program

Learn about the opportunities and threats facing our regional food system and how WNF is helping to make it more sustainable. **August 1, 4:30 PM.**

Ecological Eating

Piper Dumont, WNF Education Director

Peek into the development and consequences of the industrial food system and the imperative for change. Learn why WNF is working to educate consumers about the impact of their food choices. **September 19th, 4:30 PM.**

Farm Explorers

*Saturdays & Sundays, 9-9:45 AM
\$5 per child (cost includes admission for 2 adults)*

Help us explore the fascinating wonders of farming! This is a great chance for our youngest group of farmers (ages 3 and under) to explore the barn. This program will be structured as an exploration of our working farm, making it the perfect venue for a morning play date with friends.

Farmer for the Morning

*Thursdays, Saturdays, & Sundays, 10-10:45 AM
\$5 per child (cost includes admission for 2 adults)*

Pre-K kiddos (ages 4-5) get a chance to see our working farm in action! Each week our program will have a different theme and will include a story, a variety of hands-on crafts and projects, and the opportunity for our young farmers to engage in farm chores.

Get a Taste of the Farm

*Saturdays & Sundays, 11 AM-12 PM
\$5 per person, recommended for ages 10 & up*

Come get a taste of the farm with an in-depth tour of our barns and gardens! We'll go through our milking parlor and brand new Wishcamper Livestock Education Barn. We will then take a tractor ride up to the Teen Agriculture field to get a taste of the organic produce we grow here!

Afternoon Milking

*Wednesdays & Saturdays, 4-5 PM
\$5 per person, recommended for ages 6 & up*

Witness 30+ cows go through the organic milking process in our unique dairy parlor. You will meet some of our dairy apprentices and learn about the Organic Dairy Farmer Training Program we offer at Wolfe's Neck Farm. Get a behind-the-scenes look at our milking herd in action and learn about what goes into organic dairy farming!

History Haywagon Ride

*Monthly through September
Saturdays June 24, July 22, August 19, September 16
\$5 per youth (ages 12-18) and \$10 per adult*

Climb aboard our haywagon and travel through time as you hear stories of the ship captains, fishermen, farmers, teachers, and homemakers who have lived on Wolfe's Neck over the past 250 years! This experience will take you around the farm and along the neck with a local historian as your guide.

Love What's Happening?

Become a Member to stay involved

Your annual family membership supports our array of hands-on educational opportunities happening throughout the year. Come to the farm with pride, plus enjoy early access to a number of popular farm events and more. \$35 Individual, \$60 Family **Visit wolfesneckfarm.org/annual-family-membership**

How to Register & Attend

Visit www.wolfesneckfarm.org/family-programs for latest schedule and program information, as changes may occur. Space is limited, and online pre-registration is recommended to reserve your spot.
